

**SPECIAL OFFER FOR A LIMITED PERIOD £3,000 for 3 months**

• Looking to upskill your workforce?

Staff looking to progress but don't have a qualification?

Do you want staff that are properly skilled?

# Then look no further than a National Vocational Qualification (NVQ)

An effective way of developing staff to a nationally recognised standard

# NATIONAL VOCATIONAL QUALIFICATIONS (NVQ)

## WHAT IS AN NVQ?

A National Vocational Qualification is a work-based qualification that assesses the skills and knowledge a person need against a prescribed criteria. Candidates must be able to demonstrate to a qualified assessor that they have the skills and knowledge to perform their chosen role or career path.

## HOW IS IT ASSESSED?

Candidates need to demonstrate that they have the suitable skills, knowledge and understanding to carry out the tasks associated with their job role by creating a portfolio, and through practical observation.

Where there may be a shortfall in skills or knowledge needed to provide competence, further training can be recommended or provided where appropriate to help candidates gain the necessary skills and knowledge for their NVQ qualification.

## ENTRY REQUIREMENTS

There are no specific entry requirements. To undertake an NVQ, you simply need to be doing a role that matches the needs of the qualification to enable an evidence based portfolio to be collated covering your skills and knowledge. An NVQ can be completed at your own pace as there is no set time limit on their completion.

## WHAT ARE THE BENEFITS OF AN NVQ?

### For an individual

- It allows you to expand your knowledge and fulfil your career goals
- A flexible route to becoming qualified in the workplace with no examinations
- A practical demonstration of skills, knowledge and understanding – something that employers look for
- Certification to demonstrate you have met a national standard for an occupational role without having to sit any exams
- Improved employability and transferability
- Access to recognised qualifications for employees with no other formal education
- Puts work-based credentials on your CV
- Allows you to learn while you earn

### For the employer

- An effective way of developing staff to a nationally recognised standard which results in improved efficiency
- Proof of the candidate's capability to do their job as it is based on what they can do rather than what they know
- On the job training and evidence gathering, therefore less downtime from the employee
- Demonstrates a commitment to quality both internally and externally to customers

## WHAT NVQS DO SETA OFFER?

- Mechanical
